

To whom it may concern, I declare my willingness to stand for elections for Nominating Committee member in 2024-2026.

I am representing an acute cardiac care group. Besides clinical practice, I am deeply involved in education, organizing issues, and scientific activities both in the field of the ESC as well as the Polish Cardiac Society.

In all of my activities I am guided by the idea of women's equality.

I come from a country cut off from the latest knowledge and specialists for years. That is why I am well aware of the importance of building up the gap between the Eastern part of Europe, esp. Poland and the rest of Europe. Poland's integration in this area is of great importance, and that is why, since being elected to the ACVC Board in 2019, I am actively focused on education. The activity in the ACVC brings me a lot of pleasure and satisfaction. At the same time, I am proud of being elected to the Main Board of PCS for the second time, where I am chairing the Guidelines Committee.

Following the fields of my interests, I am active while organizing Joint Sessions of the PCS and the ACVC during main Congresses of the PCS (International Congress, Sep. 2023, upcoming Spring Conference, Apr 2024).

The idea of the ESC coming ahead to the National Societies is of great importance, but not less is reaching out to the right people. If elected, I would be keen to share my experience, knowledge and a strong sense of compliance with the accepted rules and values while realizing common tasks.

Agnieszka M. Tycinska
